EXPERIENCE

web development

Flourisense technologies

March 2023 - June 2023, pune

- Collaborated with a team to develop Flourisense's hiring application called Flourishive.
- Utilized a tech stack comprising HTML, CSS, JavaScript, Node.js, Express.js, and Sequelize.
- Developed and managed database models using Sequelize ORM for efficient data manipulation and retrieval.
- Utilized Postman for testing APIs, ensuring the reliability and functionality of backend endpoints.
- Contributed to the frontend design of the application using Figma, ensuring a user-friendly interface and seamless user experience.
- Participated in regular team meetings, code reviews sessions to enhance application performance and reliability.

PROJECTS

TinDog Website

- Developed and designed the Tindog website, a project inspired by Tinder but tailored for dogs.
- Utilized HTML, CSS, and Bootstrap to create a responsive and visually appealing user interface.

Personal Portfolio

- Developed a dynamic personal portfolio website showcasing professional skills, education, and personal information using HTML, CSS, and JavaScript.
